

Report Name: CT 08 Primes/Agencies/PTAC		92 Records	
Report Date: Tuesday, November 3, 2009		Event Title: Department of Defense Northeast Regional Council Small Business Conference & Matchmaker Event	
Event #: 638532		Event Status: Update Only	
	Company/Organization	Website provided	Organization Summary
1	Allison Transmission, Inc.	allisontransmission.com	Allison Transmission, Inc. manufactures heavy duty automatic transmissions for both commercial and military applications. Allison is committed to providing opportunities for qualified Small and Small Disadvantaged Businesses in both Indirect and Direct procurement. Specific emphasis for this matchmaking event in identification and qualification of additional Veteran owned and Woman owned Small and Small Disadvantaged Businesses.
2	Amphenol Aerospace	.amphenol-aerospace.com	Summary already provided for Amphenol Aerospace by Jan Mancini.
3	Amphenol Aerospace Operations	www.amphenol-aerospace.com	Amphenol Aerospace, a Division of Amphenol Corporation, is one of the largest manufacturers of interconnect products in the world for the Military, Commercial Aerospace and Industrial markets. Amphenol designs, manufactures and markets cylindrical and rectangular, electronic, fiber optic, EM/EMP filter, and a variety of special applications connectors and interconnect systems. Our 675,000 square foot facility is nestled at the foothills of the Catskill Mountains in Sidney NY. The complex houses over 1,400 employees, incorporating state-of-the-art manufacturing technologies including CNC machining, die-casting, molding, impact and extruding, plating, screw machining and process controls. We are looking for VOSBs and SD/VOSBs that are able to supply CNC and Swiss-screw-machined components.
4	BAE Systems, Ground Systems	www.baesystems.com	Ground Systems is a leader in designing, rapidly prototyping and manufacturing protected fighting vehicle platforms and survivability solutions that support and protect the current and future forces. RG33 6x6 Mine Resistant Ambush Protected Vehicle. Ground Systems Division's signature products, such as the Bradley Combat System, the M88A2 HERCULES Recovery Vehicle and next-generation systems such as manned and unmanned ground vehicles for Future Combat Systems are developed based on years of advanced research and development experience. Technology developments in composite materials, hybrid electric power systems, integrated vehicle survivability, crew station design, training systems and other features position the organization at the forefront for future ground combat system developments.
5	Bath Iron Works	GDBIW.COM	The vast amounts and various types of materials and services used in ship construction, capital projects, overhead supplies/services, and facilities maintenance are acquired through innovative contracting methods and supplier partnerships. Examples of materials procured: Adhesives, Alum. Bar, Shapes and Extrusion, Alum. Sheet and Plate, Blades - all types, Cable Military, Carbon / Stainless Pipe / Tube, Castings, Chemicals, Circuit Breakers, Cleaning Supplies, Crane Parts, Cutters - end mill, Deck Finishing Material - Military, Deck Drains, Discs - Sanding / Grinding, Drill Bits, Electronic Components - For Facility, Fasteners, Files - all sizes, Fittings / Ferrous Pipe, Fittings / Non Ferrous Pipe, Flanges, Fuel, Lube and Greases, Fuses, Gasket, Grating, Gauges, Hoists, Hoses - all types, Hose Fittings, Holes Saws, Grinding Wheels, Kneepads, Light Fixtures - Military, Lumber and Timber, Plastics, Plumbing Supplies, Pump Motors, Rope / Chain / Wire, Safety Equipment, Switches, Symbol Electrical Boxes, Tapes, Tool Bags, Tools Portable / Serialized, Tools Fiber Optic, Torches, Valves Ferrous / Non Ferrous, Valves - Military, Welding Parts. BUSINESS OPPORTUNITIES NOT AVAILABLE: Assemblies Engineering Design Fabrication / welding Graphics for Signage-Banners Information Technologies (IT) Military ammunition components Precision Machining, Tooling, Prototype, and Assembly Effort Printing - Catalogs, Magazines, Forms, Posters, Brochures, Direct Mail, Graphic Designs, etc Printed Circuits and Electroplating Promotional Items Specialty Marketing/Labels Products Staffing / Contract Labor Training Transportation Services
6	Battelle	www.battelle.org	As a research and development organization, Battelle is interested in speaking with companies who provide environmental management, remediation and restoration services to DoD. We are interested in technical aptitudes, as well as program management capabilities. Battelle serves a broad range of DoD needs inter alia coastal and marine ecosystems; risk-driven site remediation; analyses of water, sediment, soil, biota and air; sampling instrumentation; data acquisition and visualization systems; environmental economics; modeling; climate change; water resources and coastal infrastructure development.
7	Bose Corp	www.bose.com	Bose Corporation manufactures noise canceling headsets which are sold for both government and commercial applications. We are interested in direct suppliers of PCB's, cables, connectors, fasteners, plastics, fabric (Nomex), stamped metal, printing and packaging that would go directly into our products. We are particularly interested in woman-owned, veteran-owned or HUBZone suppliers. At this time, we are not seeking suppliers of: IT parts/services, HR services/staffing or MRO/Office supplies.
8	Bose Corp	www.bose.com	Bose Corporation manufactures noise canceling headsets which are sold for both government and commercial applications. We are interested in direct suppliers of PCB's, cables, connectors, fasteners, plastics, fabric (Nomex), stamped metal, printing and packaging that would go directly into our products. We are particularly interested in woman-owned, veteran-owned or HUBZone suppliers. At this time, we are not seeking suppliers of: IT parts/services, HR services/staffing or MRO/Office supplies.
9	Carleton Technologies	www.carltech.com	Carleton is a world leading manufacturer of aviation oxygen to the military, space and commercial markets. Our products include various pressure regulators and reducers, an assortment of flow control valves and cylinder and hand valve assemblies used to store high pressure oxygen. We manufacture other pneumatic components for these markets as well, including inflation valves, solenoid valves and actuation systems. We also supply a range of highly effective personal cooling equipment for the US military. Our microclimate cooling systems enable air and ground crew to operate for extended periods of time in harsh environmental conditions.
10	Carleton Technologies	www.carltech.com	Carleton is a world leading manufacturer of aviation oxygen to the military, space and commercial markets. Our products include various pressure regulators and reducers, an assortment of flow control valves and cylinder and hand valve assemblies used to store high pressure oxygen. We manufacture other pneumatic components for these markets as well, including inflation valves, solenoid valves and actuation systems. We also supply a range of highly effective personal cooling equipment for the US military. Our microclimate cooling systems enable air and ground crew to operate for extended periods of time in harsh environmental conditions
11	Charter Environmental, Inc.	www.charterenvironmental.com	Charter Environmental is a general contractor specializing in site and building construction. We are only looking for small businesses who provide site and building construction services and supplies.

12	Cobham Defense Electronic Systems M/A-COM Div	www.cobhamdes.com	Cobham Defense Electronic Systems is seeking small, woman, veteran or minority owned businesses for products to support its electronics manufacturing operations in Lowell, MA and San Jose, CA. We are looking for suppliers of the following items: Contract manufacturers that specialize in SMT assemblies, machining/metal cutting in the areas of aluminum milling and screw machine (turning) of various metals and diameters and printed circuits (all types). Will also consider electronic components for sourcing opportunities.
13	Cobham Defense Electronic Systems M/A-COM Div	www.cobhamdes.com	At this time, we are not seeking suppliers of: IT parts/services, HR services/staffing or MRO/Office supplies. Cobham Defense Electronic Systems is seeking small, woman, veteran or minority owned businesses for products to support its electronics manufacturing operations in Lowell, MA and San Jose, CA. We are looking for suppliers of the following items: Contract manufacturers that specialize in SMT assemblies, machining/metal cutting in the areas of aluminum milling and screw machine (turning) of various metals and diameters and printed circuits.
14	Cobham Defense Systems, Continental Division	cobham.com	At this time, we are not seeking suppliers of: IT parts/services, HR services/staffing or MRO/Office supplies.
15	CT PTAP	www.ctptap.org	1. Microwave waveguide assemblies 2. Integrated assemblies 3. Commercial and military flat array antennas
16	Curtiss Wright	www.cwembedded.com	Helps companies who currently sell or wish to sell to federal, state and local government.
17	Curtiss Wright Controls	www.cwcontrols.com	PTAC
18	Defense Support Services LLC	www.ds2.com	electrical distributors and mechanical fabrications
19	Defense Support Services LLC	www.ds2.com	Aviation and wheeled vehicle maintenance staffing: ODCs associated with staffing, fixed and rotary wing overhaul and repair items; support equipment
20	Earth Tech AECOM	www.aecom.com	Aviation and wheeled vehicle maintenance staffing: ODCs associated with staffing, fixed and rotary wing overhaul and repair items; support equipment Earth Tech AECOM provides engineering, design, and consulting services for water, transportation, facilities, and environmental projects to its industrial, municipal, and federal clients. /P Water & Wastewater Projects /V Sole-source accountability for design, build, and commissioning services. /P Transportation /V A complete scope of transportation planning and design services, along with program and construction management services for airports, intermodal /multimode centers, and rail, bridge, and road projects. /P Facilities - Diverse in-house architecture-programming and engineering-design capabilities to support renovations, relocations, and demolitions of existing facilities and the construction of new facilities. /P Environmental /V A full spectrum of compliance, consulting, and construction services. www.earthtech.com
21	ECC	www.ecc.net	Note:
22	ECC	www.ecc.net	I believe that Lauren Caisse of ECC has provided this information.
23	ECC	www.ecc.net	ECC delivers engineering, construction, and environmental solutions to complex challenges facing Government and commercial organizations worldwide.
24	Elbit Systems-Merrimack (Formerly Kollsman, Inc.)	www.elbitsystems-us.com	ECC delivers engineering, construction, and environmental solutions to complex challenges facing Government and commercial organizations worldwide. Elbit Systems of America has 4 locations: Merrimack NH, Fort Worth TX, Talladega AL, Tallahassee FL.. For this matchmaker, Merrimack NH is being represented. Merrimack is currently reviewing SDVOSB, WOSB, HUBZone & SDB owned machine shops.
25	EMC Corporation	emc.com	The five biggest areas in which EMC is currently focusing its energies on are content management, resource management, storage virtualization, information security, and virtual infrastructure software. Second only to your people, your information is your organization's most important asset. EMC provides the technologies and tools that can help you release the power of your information. We can help you design, build, and manage flexible, scalable, and secure information infrastructures. And with these infrastructures, you'll be able to intelligently and efficiently store, protect, and manage your information so that it can be made accessible, searchable, shareable, and, ultimately, actionable. You can also use EMC information infrastructure as the foundation for implementing your information lifecycle management strategies, securing your critical information assets, leveraging your content for competitive advantage, automating your data center operations, reducing power and cooling costs, and more. In short, with an information infrastructure, you can avoid the potentially serious risks and reduce the significant costs associated with managing information, while fully exploiting its value for business advantage.
26	Foster-Miller, Inc.	www.foster-miller.com	Engineering Services
27	Foster-Miller, Inc.	www.foster-miller.com	Specialized Machine Services
28	GEI Consultants	www.geiconsultants.com	Engineering Services
29	Gentex Corporation	Gentexcorp.com	GEI Consultants, Inc. provides a broad array of geotechnical, water resources, environmental and ecological science and engineering consulting services to clients nationwide. GEI has provided geotechnical services as the prime contractor under several IDIQ contracts to the New England District of the USACE. We are always looking for small business partners who can enhance or compliment the geotechnical services that we provide to the New England District.
30	Gentex Corporation	Gentexcorp.com	We would like to focus on manufacturing companies in the areas of small volume quick turn cabling with over molding capabilities and small volume quick turn circuit boards. Specifically in the categories of Hub Zone, Veteran, and Service Disabled Veteran. We have no need to meet with MRO companies during this event as we already have several MRO companies that we are working with currently.
31	Gentex Corporation	Gentexcorp.com	We would like to focus on manufacturing companies in the areas of small volume quick turn cabling with over molding capabilities and small volume quick turn circuit boards. Specifically in the categories of Hub Zone, Veteran, and Service Disabled Veteran. We have no need to meet with MRO companies during this event as we already have several MRO companies that we are working with currently.
32	Goodrich Corp - Sensors Unlimited	Goodrich.com	We would like to focus on manufacturing companies in the areas of small volume quick turn cabling with over molding capabilities and small volume quick turn circuit boards. Specifically in the categories of Hub Zone, Veteran, and Service Disabled Veteran. We have no need to meet with MRO companies during this event as we already have several MRO companies that we are working with currently.
33	Goodrich Corporation, SUI	www.isr.goodrich.com/sui	Goodrich - Sensors Unlimited is a Short Wave Infrared (SWIR) camera manufacturer, utilizing InGaAs focal plane arrays. We are fully integrated from epitaxial growth through complete camera assembly at our Princeton NJ facility.
34	Hamilton Sundstrand	www.hamiltonsundstrand.com	Sensors Unlimited, Inc., a part of Goodrich Corporation, offers a complete line of products for image sensing in the shortwave infrared (SWIR) portion of the light spectrum, manufacturing arrays and cameras that enable users to see beyond what the naked eye can detect. The standard product line operates in the SWIR wavelength range from 0.9 to 1.7 µm. However, Sensors Unlimited, Inc. also produces extended wavelength arrays and cameras that allow the end user to see more than standard products. These product offerings include visible and SWIR response in two-dimensional arrays and cameras, allowing the same array to image from 0.4 to 1.7 µm; with this extended wavelength range, the end user will be able to see more than the standard product offerings. We also manufacture one-dimensional linear arrays and cameras with extended wavelength response: detection with these arrays and cameras is possible from 0.9 to 1.7 µm, 1.1 to 2.2 µm, and 1.1 to 2.6 µm.
35	Hardigg Industries	www.hardigg.com	Aerospace Systems Integrator, Industrial Systems
36	Hardigg Industries	www.hardigg.com	Case manufacturer for transport and protective packaging.
37	Harris Corporation	www.harris.com	Case manufacturer for transport and protective packaging.
38	Harris Corporation, RF Communication Division	www.harris.com	We engineer and manufacture military type communication devices. Procurr all commodities for builds. Commodities include raw PWBs, electronic and electro-mechanical components, metalwork, antennas, etc.
39	Harris Corporation, RF Communication Division	www.harris.com	Harris RF Communications is a leading supplier of voice & data communication products, systems and networks to military, government, & commercial organizations world-wide. We expect high quality, on-time performance, and competitive pricing. Some of the commodities we purchase are Cable Assemblies, Metal and Plastic Fabrication, and Specialty Electronics.
40	Insight Technology	www.insight-tek.com	Harris RFCommunications is a manufacturer of comunicaton equipment and systems. Our key purchases are components, PWBs, metal work,amlennas, and ancillary equipment
41	Insight Technology	www.insight-tek.com	Manufacturer of Precision Electro Optical Mechanical Devices, Thermal Imaging, and Night Vision equipment.
42	ITT	www.itt.com	Manufacturer of Electro Optical Mechanical Devices, Thermal Imaging Systems.
			ITT is a high-technology engineering and manufacturing company with approximately 40,000 employees operating in 55 countries.

43	ITT Communications Systems	www.itt.com	We are a military communications systems company. The type of commodities we are looking for are in electronic components, military spec hardware, etc.
44	ITT Industries Space Systems	www.defense.itt.com	ITT Space Systems provides specialized imaging solutions to national and local government agenciesand other qualified commercial orgnizations. Our Procurement needs are for MRO, Mechanical and Electrical.
45	ITT Industries Space Systems	www.defense.itt.com	Same as ITT Space Systems Div.
46	Kaman Aerospace Corporation	www.kaman.com	sheet metal machined components electronic components
47	Kevlin Corp Cobham	www.cobhamdes.com	Kevlin is a microwave company producing rotary couplers. Looking for Machine Shop, Casting Houses, Electronics Items.
48	LaGuardia Community College PTAC	www.laguardia-ptac.org	The LaGuardia Community College PTAC is located in New York City. Our mission is to provide procurement technical assistance primarily to businesses in Queens, Nassau, and Suffolk counties.
49	Maine PTAC	www.maineptac.org	The Maine PTAC is part of a nationwide network of Procurement Technical Assistance Centers (PTACs) that helps Maine small businesses obtain government contracts with the Department of Defense, other federal agencies, state and local governments, and federal prime contractors.
50	Massachusetts PTAC	www.msbdc.org/ptac	PTAC
51	Massachusetts PTAC	www.msbdc.org/ptac	PTAC
52	MINE SAFETY APPLIANCES CO.	msanet.com	packaging item, poly bags, cushioning, locifle, labels
53	MIT, Lincoln Laboratory	http://www.ll.mit.edu/	MIT Lincoln Laboratory is a federally funded research and development center (FFRDC) sponsored by MIT, and funded by the Air Force under prime contract FA 8721-05-C-0002. MIT LL is an independent division of MIT. The Laboratory is chartered to apply advanced technology to problems of national security. Research and development activities focus on long-term technology development as well as rapid system prototyping and demonstration. These efforts are aligned within key mission areas. The Laboratory works with industry to transition new concepts and technology for system development and deployment). MIT/LL procures a wide range of materials, supplies and services needed to support the mission and MIT LL's 40 acre/15 building campus next to Hanscom Air Force Base in Lexington MA. The Laboratory procures research & development services, aircraft services and parts, building supplies, computers, electrical supplies and components, fabrication supplies and services, etc. Protégé and other small business partners of large businesses are especially encouraged to visit our table. The Laboratory has no current plans to procure IT, educational, training, promotional or security services
54	MSA	www.msanet.com	corrugated packaging PE bags cushioning materials assembly work
55	Naval Undersea Warfare Center	www.npt.nuwc.navy.mil	Naval Undersea Warfare Center's mission is to operate the Navy's full-spectrum research, development, test and evaluation engineering and fleet support center for submarines, autonomous underwater systems, adn offensive and defensive weapon systems associated iwth undersea warfare.
56	NH PTAP	http://nheconomy.com/sell-to-the-government/	NH PTAP
57	NH PTAP	http://nheconomy.com/sell-to-the-government/	NH PTAP
58	NSTAR Electric & Gas Corporation	www.nstar.com	Headquartered in Westwood, Massachusetts, NSTAR Electric & Gas Corporation transmits and delivers electricity and natural gas to 1.4 million residential and business customers in over 100 Eastern Massachusetts communities.
59	Perkins Eastman	www.perkinseastman.com	Perkins Eastman was founded in 1981 with the mission of bringing superior design to programmatically complex building types. Known for quality buildings for healthcare, senior housing, education, and research, and for master planning expertise, Perkins Eastman has grown in the last five years from a single office in New York to a firm of nearly 800 with ten global offices. With more than 200 of the firm's staff members focused on healthcare design, research, and related projects, our healthcare practice is one of the largest in the eastern United States and Canada. We believe that a thorough knowledge of our clients' programs, operations, financial, and technical needs supports our strategic problem-solving skills and results in the creation of innovative environments noted for design excellence. Cancer care .X Ambulatory care .X Emergency departments .X Imaging departments .X Surgery departments, including inter-operative imaging suites .X Cardiology facilities .X Critical care units .X Pediatric units and facilities .X Inpatient units, including in-situ upgrades .X Psychiatric departments .X Rehabilitation facilities .X Laboratories .X Public spaces .X Service and Support areas
60	Perkins Eastman	www.perkinseastman.com	Perkins Eastman was founded in 1981 with the mission of bringing superior design to programmatically complex building types. 61	Raytheon Company- Network Centric Systems	www.raytheon.com	Looking for support in: IED Crisis Operations Modelling and Simulation Battlefield Management Power Supplies Commercial Off-the-shelf circuit card assemblies (CCA)
62	Rhode Island PTAC	www.riptac.com	Government contract consulting and business development
63	RI PTAC	www.riptac.com	PTAC

64	Rochester PTAC	www.rochestertpac.com	Rochester PTAC serves clients in the New York State counties of Genesee, Livingston, Monroe, Ontario, Orleans, Seneca and Wayne
65	Rolls-Royce Naval Marine, Inc.	www.rolls-royce.com	I am primarily looking for Machine Shops to produce precision parts for out production facility. No IT. Possible facility services welcomed.
66	Sikorsky Aircraft	www.sikorsky.com	Sikorsky Aircraft is a Prime Contractor who requires Quality and Aerospace certifications from all suppliers.
67	Teledyne Printed Circuit Technologies	www.teltpct.com	n/a not attending
68	Teledyne Printed Circuit Technologies	teltpct.com	NA
69	Teledyne Printed Circuit Technologies	teltpct.com	NA Not attending
70	Teledyne Printed Circuit Technologies	teltpct.com	NA Not attending
71	Teradyne, Inc.	www.teradyne.com	Teradyne designs and manufactures Automatic Test Equipment that delivers competitive advantages to the world's leading electronic companies. We are a global leader in electronics testing and inspection solutions serving the world's leading original equipment manufacturer and electronics manufacturing services suppliers. We deliver test solutions to developers and manufacturers of a broad range of integrated circuits, packaged separately or integrated as cells in system-on-a-chip (SOC) devices. ICs tested by Teradyne are used in computing, communications, consumer, automotive, identification, and internet applications. Products include FLEX, J750, Tiger, and Catalyst.
72	Teradyne, Inc./Mil-Aero Business Unit	www.teradyne.com/atd/	PTAC
73	Tetra Tech EC	www.tteci.com	Tetra Tech EC, Inc. is a U.S. based leading consulting, engineering, remediation, restoration, and construction firm. We provide our clients with a full range of traditional and innovative services, that are delivered cost effectively, timely and in compliance with applicable regulations and requirements. We distinguish ourselves to our clients by proactively incorporating, Client Service Quality®, Do It Right®, and Shared Vision® principles through our work processes, operating procedures, and execution methods. We consistently meet or exceed client expectations. For projects small or large, we work together with our clients to achieve a shared vision of the project objectives: scope, budget, schedule, and level of quality.
74	Tighe & Bond Consulting Engineers	http://www.tighebond.com/	One of the oldest continuously operating engineering firms in the Northeast, Tighe & Bond has built a reputation upon the technical knowledge, experience and capabilities we bring to each project we undertake, as well as the service we provide. Over the years, we have evolved to specialize in environmental engineering and consulting, focusing on water, wastewater, solid waste and hazardous waste, while continuing to provide expert civil engineering services. We have further enhanced our service offerings to include GIS, geotechnical, structural and electrical engineering. Known for designing innovative strategies, we have provided consulting services to a wide variety of government, institutional and industrial clients across the region.
75	U.S. Army Corps of Engineers	www.usace.army.mil	Environmental and General Construction
76	U.S. Army Corps of Engineers, New England District	www.usace.army.mil	The U.S. Army Corps of Engineers, New England District buys construction, professional service, and A/E services
77	U.S. Dept. of Veteran's Affairs	www.va.gov/osdbu	The Department of Veterans Affairs provide healthcare, benefits and burial services to Americal Veterans. We purchase medical supplies,equipment and professional services: lawn maintenance: construction: facility maintenance: office supplies, furniture and equipment
78	U.S. DOT/Volpe Center	http://www.volpe.dot.gov/	The John A. Volpe National Transportation Systems Center (Volpe Center) in Cambridge, Massachusetts, is an innovative, Federal, fee-for-service organization within the U. S. Department of Transportation (DOT). The Volpe Center is an internationally recognized center of transportation and logistics expertise. Through research and development, engineering, and analysis, the Volpe Center helps decision-makers define problems and pursue solutions to lead transportation into the 21st century. In essence, the Volpe Center is a catalyst for innovation — a source of critical insight necessary to realize transportation's promising future. We do projects on behalf of other operating administrations within DOT and other federal agencies, state governments and even foreign governments. We focus mainly on transportation research and logistics. Some of our projects include crash test studies for the National Highway Traffic Safety Administration (NHTSA), noise emissions testing for the Federal Aviation Administration (FAA), Iraqi Microwave towers for the Iraqi railroad and everything in between. All of our work supports DOT's strategic goals: Safety, Mobility, Global Connectivity, Environmental Stewardship, Security, and Organizational Excellence. The Volpe Center is currently looking for Service Disabled Veteran Owned Small Businesses that provide systems engineering, information technology (IT) support, or environmental remediation and decommissioning services.
79	U.S. Small Business Administration	www.sba.gov	SBA representatives will be available to provide information on our small business contracting programs, i.e 8(a) business development program, Small Disadvantaged Business Program (SDB) and HubZone program.
80	U.S. Small Business Administration	www.sba.gov	SBA representatives will be available to meet with attendees to tell them about SBA contracting programs, i.e 8a Business Development program, Small Disadvantaged Business program (SDB), HubZone program, etc.
81	UNIVERSITY OF CT HEALTH CENTER	http://purchasing.uchc.edu/	In search for minority owned businesses
82	US Department of Transportation	www.dot.gov	transportation related goods and services
83	USCG Research & Development Cntr - DHS	www.rdc.uscg.gov	THE USCG RESEARCH AND DEVELOPMENT CENTER (R&D CENTER) is the Coast Guard's sole facility responsible for applied scientific research and development of technologies that help our Service be ready for today and prepared for tomorrow. THE R&D CENTER is dedicated to maximizing its contribution by maintaining a balanced portfolio of projects that support the Coast Guard's short, medium, and long range requirements across all major missions. We pursue technologies that provide incremental improvements as well as those with the greatest potential to strategically transform the way the Coast Guard does business.
84	USCIS Contracting Office	http://fsc.uscis.dhs.gov/Contracting/default.asp	The USCIS Contracting Office provides the management, oversight, and guidance for the Procurement program for all U.S. Citizenship and Immigration Service customers. Our primary role is to provide USCIS with the supplies/services necessary to accomplish their mission. In doing so, we act as business consultants in working with the HQ Contracts Support Branch and Program Offices from the beginning of requirement identification through successful contract award and administration.
85	USCIS Contracting Office	http://fsc.uscis.dhs.gov/Contracting/default.asp	The USCIS Contracting Office provides the management, oversight, and guidance for the Procurement program for all U.S. Citizenship and Immigration Service customers. Our primary role is to provide USCIS with the supplies/services necessary to accomplish their mission. In doing so, we act as business consultants in working with the HQ Contracts Support Branch and Program Offices from the beginning of requirement identification through successful contract award and administration.
86	USPFO For RI	www.riguard.com	Our mission is to provide professional contracting support for all RI National Guard Organizaitns in the acquisition of Construction, Architect-Engineer Services and other supplies and services, utilizing the most efficient and effective procedures available.
87	USPFO RI	http://www.ripfo.ngb.army.mil	The mission of the United States Property and Fiscal Office (USPFO) for Rhode Island (RI), as established by Title 32 United States Code, Section 708, is: - To procure supplies, services, and military construction via local purchase through contracting operations as required. Contract operations are cradle to grave and in clude both Army and Air funding. -To receive and account for all funds and property of the United States in possession of the Rhode Island National Guard: - To ensure that Federal funds are disbursed in conformance with applicable statutes and regulations: - To make sure that Federal property provided to the Rhode Island National Guard is maintained and utilized in accordance with applicable directives: -To manage the Federal Logistic Support System for the State upon mobilization, and provide support necessary for transition to active duty. The USPFO for RI is located at 330 Camp Street, Providence, Rhode Island 02906-1954. To provide support to the RI National Guard, its units, soldiers and airmen, the USPFO for RI is open Tuesday through Friday from 7:00 AM until 5:30 PM.
88	Vibro-Meter, Inc.	www.meggitt.com	Vibro-Meter, Inc. designs and manufactures aircraft sensor systems including: fuel quantity gauging systems, fuel flow, engine oil level, and oil pressure sensors, chip detectors and chip collectors. Our industrial products include the Omniguard® optical UV and UV/IR flame detectors, and flame verification and characterization equipment. Products Manufactured Vibro-Meter Inc features product lines that include optical flame detection systems, oil and fuel monitoring systems, and aerospace engine sensors and indicators. Vibro-Meter, Inc. is also a centralized US repair facility, offering support for devices manufactured by other Meggitt companies such as: Vibro-Meter SA, Vibro-Meter UK, Meggitt Avionics, and Endevco. Markets Served Aerospace: civil, military, general aviation Industrial: power generation, gas turbine, petrochemical Capabilities Fluid measurement testing Display lighting/optics

			Environmental qualification Welding to AWS D17.1
89	VT PTAC	http://economicdevelopment.vermont.gov/Programs/VTPTAC/tabid/125/Default.aspx	VT PTAC assist Vermont businesses with regard to government contract and subcontracting opportunities.
90	Watervliet Arsenal	www.wva.army.mil	Watervliet Arsenal is a manufacturer of large caliber cannon.
91	Weston Solutions, Inc	www.westonsolutions.com	Weston Solutions, Inc is always looking for good earthwork subcontractors and specialty subcontractors like survey, fence installers, drillers, etc. We are sorry, but we do not seek outside firms for computer equipment or software, as this is all done in house.
92	Yale University (School of Medicine)	yale.edu/procurement	We are looking for vendors who can satisfy our requirements in travel, lab equipment/lab supplies, computer distributors, staffing, & furniture
